

Positive Pellet® Goat Dewormer Medicated Manna Pro®

Breaks the life cycle of 3 major gastrointestinal worms

Eliminates the need for stressful shots and drenches

Provides a complete, balanced feed

For all classes of meat and dairy goats, including pregnant and lactating does

Manna Pro® Positive Pellet® Goat Dewormer is the stress-free way to keep your goats happy and healthy. Not only does it break the life cycle of three major gastrointestinal worms including *Haemonchus contortus*, *Ostertagia (Teladorsagia) circumcincta* and *Trichostrongylus axei*, but it also provides complete and balanced nutrition. And because it is safe to feed to all classes of meat and dairy goats, including pregnant and lactating does, you can keep your whole herd healthy while eliminating the need for stressful shots and drenches. Simple feed Positive Pellet once a month as directed and you'll have the peace of mind of knowing your goats are getting the nutrition and medication needed for a long, healthy life.

For removal and control of mature gastrointestinal nematode infections of goats including *Haemonchus contortus*, *Ostertagia (Teladorsagia) circumcincta* and *Trichostrongylus axei*.

Active Drug Ingredient:

Morantel Tartrate 880 g/ton

Guaranteed Analysis:

Crude Protein min 16.00%
(This includes not more than 1.5% equivalent crude protein from non-protein nitrogen.)		
Crude Fat min 1.50%
Crude Fiber max 15.00%
Calcium min 1.00%
Calcium max 1.50%
Phosphorus min 0.25%
Salt min 1.25%
Salt max 1.75%
Copper min 18 PPM
Copper max 28 PPM
Selenium min 0.48 PPM
Zinc min 170 PPM
Manganese min 80 PPM
Vitamin A min 5,500 IU/LB

Vitamin D₃ min 3,250 IU/LB
Vitamin E min 20 IU/LB
Thiamine min 10 MG/LB

Ingredients:

Dehydrated Alfalfa Meal, Wheat Middlings, Corn, Diatomaceous Earth, Cane Molasses, Feeding Oatmeal, Soybean Meal, Sunflower Meal, Cottonseed Hulls, Cottonseed Meal, Ammonium Chloride, Yeast Culture, Anise Oil, Calcium Carbonate, Salt, Sulfur, Ferrous Carbonate, Ferrous Sulfate, Copper Sulfate, Manganous Oxide, Zinc Oxide, Zinc Sulfate, Cobalt Carbonate, Calcium Iodate, Sodium Selenite, Vitamin A Supplement, Vitamin D₃ Supplement, Vitamin E Supplement, Thiamine Mononitrate, Vitamin B₁₂ Supplement, *Saccharomyces Cerevisiae*, Dried *Enterococcus faecium* Fermentation Product, Dried *Lactobacillus Casei*, Dried *Lactobacillus Acidophilus* Fermentation Product, Dried *Lactobacillus Plantarum*, Dried *Bacillus Subtilis* Fermentation Product, Dried *Aspergillus oryzae* Fermentation Extract.

Feeding Directions

Feed Positive Pellet Goat Dewormer at the rate of 1 lb. per 100 lbs. of body weight as a single feeding. To ensure consumption within 6-8 hours, the normal ration can be removed for up to 12 hours before feeding the Positive Pellet Goat Dewormer. Always provide enough bunk space for all goats to eat at one time.

Repeat the above treatment within 3-4 weeks for broader worm removal and control. Times and conditions of greatest worm exposure and stress include the grazing season, young goats, 30 days pre-breeding and the last 30 days of gestation. Positive Pellet Goat Dewormer may be fed at the recommended rate one day each month for effective worm control and to assist in breaking the worm cycle. Consult with your veterinarian regarding a comprehensive parasite control program. Use dewormers in an appropriate rotation.

Warning:

Do not treat goats within 30 days of slaughter. No milk discard required following use in dairy goats.

Caution: Consult veterinarian before using in severely debilitated animals. Do not mix in feeds containing bentonite.

Reminder: Feed is perishable. Store this product in a cool, dry area away from rodents and insects.

Warning: Do not offer any feed that is spoiled, moldy, rodent or insect-infested, or abnormal in appearance or odor, as it may cause illness or death.

Warning: This product contains supplemental copper. Do not feed to sheep or other copper-sensitive species.
