Since 1975, Scott Pet has been a family-owned business helping dogs lead quality lives. Pork Chomps were developed specifically with a dog's health in mind. Our patented process removes 70% of the pork's fat creating a healthier and long lasting chew.

A study done by a U.S. veterinary university in 2012 showed Pork Chomps are much easier to digest than rawhide.

Pork Chomps are produced in a state-of-the-art facility that is certified by BRC to the Global Food Safety Initiative's (GFSI) Global Standard for Food Safety. The Global Standard for Food Safety is the bench mark to which companies producing human food aspire to. We at Scott Pet know that your dogs are your family and deserve the same standard in food and treats as you do. Therefore, we are proud to produce Pork Chomps that meet this high standard for food safety and quality, only the best for your family.

helping dogs lead quality lives. Our products are designed to nurture health and happiness. That's why we're proud to offer Pork Chomps. Healthier and better tasting than rawhide. Pork Chomps give dogs a long-lasting, satisfying chewing experience.
