

# Quic Black®

## *exhibitor's*™

### **Dark Intensifier & Shampoo**

For Black, Dark Brown

**Quic Black®** is a dark shade intensifier and shampoo for equine hair that optically alters the way light interacts with each hair shaft. QUIC BLACK is absolutely stunning for blacks and dark browns (subdues unwanted red tones); naturally enhances dark tones within the main, tail and coat while providing deep-cleaning to leave your horse soft, smooth and shiny.

#### **Quic Black® Benefits:**

- Creates incredible richer tones intensifying dark coats
- Gentle cleansing leaves coat soft, smooth and shiny
- Used consistently, the optical effects will intensify with each use
- No harsh chemicals or bleaches to leave the hair dull and dry

#### **General Concerns and Precautions:**

**Quic Black®** is gentle and safe with the correct equine pH, however, if your horse has allergies, always pretest for sensitivity. Do not use on open sores, wounds or scar tissue, and avoid the eyes. For external use only.

#### **Directions For Use:**

**Please Note:** QUIC BLACK will not intensify color if diluted with water or other shampoos. QUIC BLACK'S environmentally friendly, low-sudsing formula is easy to rinse at full strength. If accidentally applied to white coat areas, rinse immediately.

**For Best Results:** It is recommended for dirty coats, manes and tails to use **Quic Shampoo** first to thoroughly clean, then use **Quic Black®**. Finish up with **Quic Conditioner** and/or **Quic Sheen®**.

1. Remove excess dirt from coat and then thoroughly wet horse.
2. Apply QUIC BLACK full strength to main and tail, working throughout roots of hair.
3. Apply QUIC BLACK full strength to sponge or wash mitt and evenly distribute through the coat using a circular motion.
4. Allow QUIC BLACK to remain in place for 5-10 minutes. (Longer time equals greater effects, 10 minutes is color-safe maximum.) Rinse well.
