

Majesty's Bio + Wafers™

Majesty's™ Animal Nutrition

Easy-To-Use Equine Hoof & Coat Supplement Wafers

Hoof & Coat Support for Horses

30mg pure biotin plus added essential nutrients

Veterinarian Recommended

Made in Central Oregon

Nestled east of Cascade Mountains, beautiful Central Oregon is home to a large population of horses. Pastured for six or seven months of the year supplementing your horse can be a difficult and inefficient chore. The same applies other times of the year when you have multiple horses and feed them together but only want to supplement one or two of them.

Family Owned Majesty's Animal Nutrition has developed a superior way to efficiently supplement your horse year round. You now have no need to separate and stall horses, mix feed with supplement and make sure it is consumed. With Majesty's, you only need to use a tasty, no-bake wafer, saving you time and money! And because we actually manufacture the products, we are able to provide optimum control over quality, freshness and cost.

- Quality Ingredients Sourced Globally
- 99% Pure Biotin Healthy Hoofs & Coats
- 100% Satisfaction Guaranteed or Your Money Back

Using only the finest ingredients, we combine **99% Pure Biotin** with **Methionine, Lysine, Zinc, and Copper**...all known to support healthy hoofs and coats on your horse. You and your horse will absolutely love them. Know they are getting the right amount...every time with our unique wafer.

Guaranteed Analysis:

Each Wafer Contains

Crude Protein	min 20.00%
