INSTRUCTIONS:

- Clean hoof thoroughly
- Apply treatment and/or foam pad (secure with flex wrap if desired)
- Start with tab 1 (lower left) on back of hoof
 - Secure tab 2 (lower right) to tab 1
 - Secure tab 3 (front left) to tab 1
- Secure tab 4 (front right) to tabs 3 and 2
- Pull front tab 5 to back and secure
- Pull back tab 6 to front and secure
- Check bandage as needed

Note bandage position - hoof/foam pad is placed directly on the reinforcing pad of the inside of bandage (shown). Press hook and loop firmly to secure in position.

GUARANTEE

Thank you for purchasing **Hoof Wraps**. A great deal of time and planning goes into every product we make. **Hoof Wraps** are fully guaranteed against defects in materials and workmanship. In the event of a manufacturing defect, please return your new and unused bandage with proof of purchase to www.hoofwraps.com.

Instructions for Applying Hoof Wraps Bandages

WWW.HOOFWRAP.COM

1

Secure the EVA Foam Pad directly to the hoof using Coflex Wrap (Figure 1) OR secure the pad to the center of the bandages using the adhesive backed squares (Figure 2).

Note: In most cases, it is not necessary to trim the pad

Figure 1

Figure 2

2

There are two methods for applying the Hoof Wraps Bandage.

METHOD 1 - Lay bandage flat on the ground. Place hoof on the center of the bandage (Figure 3). You are now ready for Step 3.

Method 1 - Figure 3

METHOD 2 - Pick up the hoof and position the hoof on the center of the pad. Gather the bandage around the hoof without securing "the tabs" (Figure 4). Place the hoof and bandage on the ground and move to Step 3.

Method 2 - Figure 4

TIP - Figure 5

TIP- Pre-attach the rear tabs 1 and 2 (Figure 5) so they form a "cup". Pick up the hoof and place the "cup" on the rear of the hoof and make sure it is positioned in the center of the bandage. Place the hoof and wrap on the ground.

Each Kit Contains:
1 Hoof Wrap Bandage
1 EVA Foam Pad
2 Sets of Adhesive Back Squares

3

Connect tabs 1 and 2 at rear and press firmly. (Figure 6)

Figure 6

4

Connect tabs 3 and 4 in front and press firmly. (Figure 7)

Figure 7

5

Pull front tab number 5 up and over toward the rear side of the bandage and fasten securely. (Figure 8)

Figure 8

6

Finish by pulling the straps of tab 6 to the front of the hoof and secure firmly. (Figure 9)
