

Aluminum Brightener

Streak Master®

Heavy Duty Acid Cleaner For Aluminum

DANGER

Causes Severe skin burns and eye damage.

Wear protective gloves and eye protection. Do not breathe dusts or mists. Wash thoroughly after handling. Wear protective nitrile gloves and safety glasses.

Avoid contact with skin or clothes.

IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Call a physician immediately. **IF ON SKIN:** Take off immediately all contaminated clothing. Rinse with water. Use safety shower if available. Wash contaminated clothing before reuse. **IF INHALED:** Remove person to fresh air and keep comfortable for breathing. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Store locked up. Dispose of according to local, state, and federal regulations.

DOT HMR Excepted 49CFR 173.154

Directions: For general brightening of aluminum, dilute 1 part Aluminum brightener with 3 parts water. Remove any bulk soils from the surface such as mud, manure, etc. Apply to dry surface with a dot brush starting at the bottom and working to the top. Let sit for 1 minute then rinse. Do not allow chemical to dry on surface. Do not use a hand trigger sprayer to apply this product. Do not use on glass or polished aluminum (which looks like chrome).

For any questions, please contact Streak Master at (214) 912-3368.

Ingredients: Water, phosphoric acid, sulfuric acid, a proprietary blend of inorganic acids, catalysts, surfactant, and colorant.

Streak Master Aluminum Brightener is the acid brightener of the future. It is a concentrated industrial strength acid brightener that is a safer alternative to traditional aluminum brighteners. This product WILL brighten aluminum and WILL remove road film, just like a traditional aluminum brightener WITHOUT the negative hazards associated with most aluminum brighteners. This product will quickly remove any aluminum oxide (aluminum rust), leaving a fresh aluminum surface for welding, polishing, striping, paint or pre-paint treatments. It is exceptional at cleaning polished stainless steel to a brilliant shine and quickly removed brake dust from wheels. Streak Master Aluminum Brightener is biodegradable and, when pH neutralized, is safe for disposal in most municipalities.
