

# Majesty`s Omega Wafers

## *Majesty`s Animal Nutrition*

### Easy-To-Use Equine Supplement Wafers

#### Skin, Coat & Immune Support for Horses

Omegas 3, 6 & 9 plus biotin in one easy-to-use wafer

Veterinarian Recommended

#### Made in Central Oregon

Nestled east of Cascade Mountains, beautiful Central Oregon is home to a large population of horses. Pastured for six or seven months of the year supplementing your horse can be a difficult and inefficient chore. The same applies other times of the year when you have multiple horses and feed them together but only want to supplement one or two of them.

Family Owned Majesty`s Animal Nutrition has developed a superior way to efficiently supplement your horse year round. You now have no need to separate and stall horses, mix feed with supplement and make sure it is consumed. With Majesty`s, you only need to use a tasty, no-bake wafer, saving you time and money! And because we actually manufacture the products, we are able to provide optimum control over quality, freshness and cost.

- Quality Ingredients Sourced Globally
- Loaded With Omegas Obtained From Flax
- 100% Satisfaction Guaranteed or Your Money Back

We use the finest ingredients to make this no-bake wafer that your horse will love. Full of **Omega 3, 6, & 9**, which has been shown to support healthy hair, coat and hoof condition while also supporting a healthy immune system. We also add **Biotin**, which aids horses in metabolizing the **Omegas**.
