Gastric health • Immune support • Muscle health
Energy • Endurance • Recovery

APF Pro

- Helps protect against the potentially harmful effects of stress incurred during athletic training, stabling, and transport.
- Helps maintain proper GI function.
- Provides proven immune support.
- Supports proper energy metabolism.
- Supports muscle health.
- Supports recovery from injury, illness, and training.

A water-alcohol extract of: *Eleutherococcus senticosus*, *Rhodiola rosea*, *Schizandra chinensis*, *Aralla mandschurica*.

Directions For Use:

Sales preparation and moderate levels of athletic training: 1.5 mls to 2 mls per 250 lbs. body weight. (6 to 8 mls per 1,000 lbs.)

Intense athletic training and competition: 2.5 to 3 mls per 250 lbs. body weight. (10 to 12 mls per 1,000 lbs.)

For best results, feed daily. APF Pro may be administered directly into horse's mouth or added to a small amount of feed.
