

MATINGMARK™

HARNESS & CRAYON SYSTEM

Find your fit

Rurtec	Size	Girth Strap				Animal Weight (approx)			
		Max Length		Min Length		Maximum		Minimum	
Product Code	Size	mm	inches	mm	inches	Kg	lb	Kg	lb
MMHNA	Extra Large	1460	58	970	38	200	440	80	180
MMH	Standard	1310	52	820	33	140	310	55	120
MMHH	Small	1050	42	670	27	60	130	35	80
MMHXXS	Extra Small	830	33	550	22	35	80	18	40

Running a tape around the chest to measure the girth is the most accurate.

MATINGMARK Harnesses – A Size to Fit All

Secure & Comfortable

Wide and comfortable straps combined with the “cross over” fitting and brisket mold to give a snug, firm MATINGMARK fit. Lack of slipping and wounding of the animal make the MATINGMARK Harness very “ram friendly”!

Quick and Easy Fitting

MATINGMARK Harnesses are quick and easy to fit and adjust with “snap lock” buckles and sliders to secure loose strap ends. The world leading MATINGMARK “Click In” Crayon Holder makes fitting crayons simple. Crayons can be changed while the ram is standing, with no need to turn him on him back.

Clear and Reliable Marking

Choose from Cold, Mild and Hot Crayon types to optimise strength of marks and longevity of the crayon block in your conditions. MATINGMARK Crayons are available in 8 vivid colours. Choose from black (Cold only), purple, blue, green, red, orange and for long

lasting marks and yellow and fluoro pink for marks that do not persist as long.

The unique formulation and lower walls on the crayon holder means more marks per MATINGMARK Crayon than with any other.

Advanced Design, Made to Last

The registered design MATINGMARK Crayon Holder is well proven in decades of use internationally.

Only YKK branded buckles and sliders are used – testing has shown them to be at least twice as strong.

With proven durability of all components that make up the MATINGMARK Harness, its longevity is unparalleled.
