

No Escape® Mini Fly Reel

Bonide®

Attracts and captures flies

For stables, farms, barns, patios and more

People & Pet Safe when used as directed

Insecticide Free

This Revenge® sticky fly tape Mini Reel Kit contains everything you need to lure and catch tens of thousands of flies. It is an environmentally safe, non-toxic fly control that you can use everywhere with confidence!

Contents: 1 reel with 81 ft. of fly tape, 1 empty take-up reel and 2 screws with anchors

Directions For Use:

When hanging your Fly Tape, try to keep it about 5" from the ceiling and away from drafts.

1. Full Reel: Screw through hole in center spindle to attach to wall or ceiling (use anchors if mounting to drywall).
2. Empty Reel: This is your take-up reel; mount 8-12 ft. from the full reel in a straight and level line. Mount same as above.
3. Remove protective paper and pull tape over to take-up reel. Wind onto take-up reel several times to attach.
4. When the exposed Fly Tape is black with flies, turn take-up reel to expose a fresh length of the Revenge Sticky Fly Tape.

Disposal:

When the take-up reel is completely full of the Fly Tape, remove the reel by squeezing the tabs on the center spindle and pulling off. Throw into the trash. Clean up our non-toxic glue with peanut butter or vegetable oil.
