

CORNUCRESCINE DAILY HOOF MOISTURIZER

Carr & Day and Martin

For Dry Conditions

Optimum Moisture Replacement, Prevents Cracking and Splitting, Unique Water Based Formulation.

Includes brush for easy application

Formulated specifically to achieve optimum moisture replacement for dry and brittle hooves. Prolonged dry periods can cause the hoof horn to dehydrate and in severe cases result in cracking and splitting. Before use first ensure the hoof is clean, dry and free from oil and grease, then apply liberally to the entire hoof structure on a daily basis.

Manufactured in Ireland
