

# ProDye Black

## Weaver™ Livestock

- Black hair dye suitable for use on all livestock
- Provides long-lasting deep black uniform color and balance from front to back
- Easy to mix and apply using a Weaver Fogger

5 Bottles of Each Included (ProDye Activator, ProDye Black Dye)  
One box contains enough dye for one 1,000 lb. calf

**Dye Ingredients:** Water, Propylene Glycol, Ethanolamine, p-Phenylenediamine, Ceterareth-25, Carbomer, Polyquarternium-39, Sodium Erythorbate, Sodium Sulfite, 2, 4-Diaminophenoxyethanol Sulfate, m-Aminophenol, Resorcinol, Disodium EDTA

**Activator Ingredients:** Water, Hydrogen Peroxide, Phosphoric Acid, Disodium EDTA, Phenacetin

**Important:** Follow the Usage Advisory. **Read and Follow the Insert.**

### From Brown & Stale to Black & Fresh

#### Cattle

**Before:** Dull, flat looking hair needs a boost for a fresh show day appearance.

**After:** ProDye provides full, thorough coverage to enhance a calf's hair for vibrant, long-lasting color and a balanced look.

#### Lambs

**Before:** The variation of color in the leg wool can take away the overall fullness and appearance of bone.

**After:** The leg wool looks balanced with more depth and full uniform color after using ProDye.

Developed specifically for livestock.
