

A man wearing a grey cap and a dark jacket is speaking into a microphone. He is holding a comb in his right hand. The background is a blurred purple and blue.

Isn't a
Comb
Just a
Comb?

The Differences Between PLASTIC & METAL

We asked ProStaffer
Bob May his thoughts on
combs to help you make
the best selection.

So, why
use plastic ?

"Always take a plastic comb in the ring, never metal. Plastic combs are safer for you, your calf, and your fellow showmen and should always be carried with the teeth facing you."

- Bob May

Why would a showman
want to use a metal comb ?

"Metal combs are best used when clipping and fitting, especially for pulling up legs. However, they should never be taken into the ring due to safety concerns."

- Bob May

Do you have
a favorite comb ?

"Due to the current industry trend of lots of hair, my go-to comb is the fluffer in both metal and plastic. They are designed to reach deep while fluffing the top hair at the same time."

- Bob May
