This product may contain one or all of the following allergens: Tree Nuts, Soy, and Fish.

### **Directions For Use:**

Offer Manna Pro® Chick Stick™ to young birds beginning at two weeks of age. For best results, suspend Chick Stick securely in the feeding area where it is protected from the elements. Make sure it is positioned at a height appropriate for the birds. Chick Stick is a nutritious supplement for all classes of poultry, but should always be offered in combination with a complete, balanced feed. When feeding treats, always provide a source of natural stones or access to Manna Pro Chick Grit with Probiotics. Provide fresh, clean water at all times.

**Reminder:** Store this in a cool, dry area away from insects and rodents.

#### Caution:

**Do not** feed any product that is spoiled, moldy, rodent or insect-infested, or abnormal in appearance or odor, as it may cause illness or death. Keep away from any heat sources.
