

WHITE POLISH

***WEAVER LIVESTOCK*™**

LIQUID POLISH FOR CONCEALING & BRIGHTENING – SHOW DAY

White Polish

Give animals a vibrant, white appearance in the show ring with White Polish. It brightens hair and hide while helping conceal scars, blemishes, stains and other imperfections. Active ingredient titanium dioxide blocks harmful environmental elements while peppermint oil and glycerin nourish the hide and help it retain moisture.

Directions:

Shake well. Spray onto animal, and distribute with a soft brush or towel. After product has dried, apply a second coat if more coverage is desired. Rinsing is not required.
