

FIT YOUR HELMET IN 3 EASY STEPS

1 Try

- A) Open the **DialFit™** if the helmet comes with this feature.
- B) Try on the helmet. It should fit snug but not be uncomfortable.

2 Adjust

- A) Adjust the inner padding by folding under the **FlipFold™** tabs for more or less cushion.
- B) Adjust the slide glides on the straps to sit underneath your ears to form a "V".
- C) Adjust the length of the retention system straps to fit snug under your jaw and use the o-rings to secure the excess.
- D) To fine tune your fit, engage the **DialFit™** or adjust the slider on the elastic bands of the **SureFit™**.

3 Check

With your helmet level on your head, check the fit and straps and make sure the buckle is locked securely.
