

# Fresh & Feminine Fast Track for Show Pigs

## *Sullivan Supply*

The Secret to Eye Appealing Show Pigs!

### **Get Fresh!**

Feminine shape and freshness throughout the front end of your show animal means ultimate success or failure in the show ring today.

This is how it works...the superior science of Fresh & Feminine features a combination of strategic vitamins, minerals, amino acids, and protein sources. This chemistry supports metabolic fat, most notably in the neck and brisket area. As a result, the animal has a more feminine, attractive physique. This helps to offset the results seen from aggressive, high energy show pig diets. Safe for market and breeding animals.
