CAUTIONS:

If animal's condition worsens or does not improve, stop product administration and consult your veterinarian.
Safe use in pregnant animals or animals intended for breeding has not been proven.

For use in equine only.

BREATHE-O₂™ (Paste) provides key ingredients that support oxygen utilization, stamina and normal muscle recovery. B-Vitamins help support energy production and nervous system.

DIRECTIONS FOR USE:

Adult Horses (900-1,100 lbs): Provide 40ml 30-60 minutes pre-race/exercise. This can also be given 30 minutes post-race/exercise to aid in normal muscle recovery.
A full dose may be administered easier by splitting dose, providing ½ dose consecutively.

WARNINGS:

Not for human consumption. Keep out of the reach of children and animals. In case of accidental overdose, contact a health professional immediately. This product should not be given to animals intended for human consumption.
Store in a cool, dry place.
