Feeding Instructions: These chews are intended as a chew and are not a complete diet. Make sure your dog gets plenty of exercise, a balanced diet and lots of water. Once your dog chews the treat to a small size, 1.5"-2", remove the piece and "Puff" it in your microwave oven for 30-40 seconds and then let it cool. The result is another tasty treat for your dog! Store in a cool dry place after opening.

Safety: As with all chews, supervise your dog when giving this chew. All dogs love cheese, but a very few may be sensitive to dairy which may result in an upset stomach. Use caution if your dog has never consumed cheese before. This treat is not intended to be consumed whole or in large chunks, which could result in choking or intestinal distress.

Ingredients: Yak Milk, Cow Milk, Salt, Lime Juice.
