High potency adaptogenic supplement for horses

Immune support • Stress protection • Gastric health • Focus • Recovery

APF Plus

- Developed by an equine veterinarian to address the effect of stress on glucose metabolism.
- Supports proper immune function.
- Helps maintain proper GI tract function.
- Supports rapid recovery from injury, illness, and training.
- Supports energy production.
- Supports mental clarity and focus.

A water-alcohol extract of:

Eleutherococcus senticosus, Rhodiola rosea, Schizandra chinensis, Aralia mandschurica, Echinopanax elatus.

Directions For Use:

Light to moderate work: 0.5 ml per 100 lbs. body weight daily.

Intense training or recovery: 1 ml to 2 mls per 100 lbs. body weight daily.

For best results, administer directly into horse's mouth or top dress on a small amount of feed.
