

Oil-Free Shine

Weaver™ Livestock

Lightweight Finishing Spray
Show Day

Oil-Free Shine gives your animals a show day glow. A moisturizing combination of vitamin E and glycerin nourishes and brings out the natural luster of skin and hide while preventing sunburn and fighting inflammation. Oil-Free Shine's water-based formula keeps your animals cooler in the heat than oil-based show day products.

Directions: Shake well. Just before the show, spray evenly on desired areas. Brush or comb in for best results. Washing is not required.
