

# Curicyn™ Hot Spot Formula

## *Eastern Technologies*

### All Purpose

- Extra Strength Formula
- Non-Toxic, Steroid and Antibiotic Free
- For Use on Hot Spots & Lick Granuloma

### Ingredients:

Purified Anolyte ..... 96%  
Hypochlorous Acid ..... 0.015%  
Lithium magnesium sodium silicate ... 2%  
Sodium chloride (residual salt) ..... <1%  
Proprietary carrier ..... <1%

### Stability

Shelf life at least 2 years under normal storage conditions.

### Disposal

No special disposal requirements.

### Storage

Store at room temperature away from direct sunlight and heat. Twist close the dispenser after use.

### For Animal Use Only.

### Not For Human Use.

Recommended for use on equine, livestock, and companion pets.

### Direction for Use

Cleans, soothes and helps promote rapid healing of hot spots, lick granuloma and other skin disorders. Remove cap and foil seal, and replace cap. Twist open cap and apply liberally to affected area. Repeat 2-3 times daily as necessary.

### Use Precautions

For animal use only. Safe for use on all animal species. Contact your veterinarian and discontinue use if adverse conditions develop. Keep out of reach of children. For external use only. Safe if licked by animal.

Made in U.S.A.
