

# Curicyn™ Pink Eye Solution

## *Eastern Technologies*

### All Purpose

- Fast Acting Formula
- Helps Promote Rapid Healing
- For the Treatment of Pinkeye and its Effects

### Ingredients:

Purified Anolyte ..... 96%  
Hypochlorous Acid ..... 0.015%  
Lithium magnesium sodium silicate ... 2%  
Sodium chloride (residual salt) ..... <1%  
Proprietary carrier ..... <1%

### Stability

Shelf life at least 2 years under normal storage conditions.

### Disposal

No special disposal requirements for the Pink Eye formula.

### Storage

Store at room temperature away from direct sunlight and heat. Twist close the dispenser after use.

### For Animal Use Only.

### Not For Human Use.

Recommended for use on equine, livestock, and companion pets.

### Direction for Use

Cleans, soothes and helps reduce inflammation and effects associated with Pink Eye. Remove cap and foil seal, replace cap. Twist open cap and apply liberally to affected animal's eye ensuring good contact with the surface of the eye. Usually one treatment will suffice, but repeat 2-3 days as necessary.

### Use Precautions

For animal use only. Contact your veterinarian and discontinue use if adverse conditions develop. Keep out of reach of children. For external use only. Safe if licked by animal.

Made in U.S.A.
