

# Horse Trough Protector

## CareFree Enzymes®

Ensures clean & clear water

Clean water is essential in maintaining a healthy horse. Horse Trough Protector provides clean, clear and healthy water.

- **Prevents** film, residue & organic contamination
- **Reduces** sludge & organic particles
- **Stops** cross contamination
- **Eliminates** water tension

What are Enzymes?

Enzymes are proteins that act as an organic catalyst in accelerating the chemical (breakdown) reaction.

### **Directions:**

Weekly, add one capful of product per 100 gallons of trough water. **Best Results:** Drain trough, use two capfuls per 5 gallon pail, scrub entire trough, rinse & add water. Add one capful of product per 100 gallons.

### **Dispense:**

Mix measured amount of Horse Trough Protector in a bucket of water, dispense evenly around entire trough.

### **Measuring Trough Water:**

Measure in feet. Multiply (length) x (width) x (depth). Multiply result by 7.5. This equals total gallons of water in trough. One capful equals one ounce. One ounce (1 capful) treats 100 gallons of trough water. Half a cap will treat 50 gallons.

### **Effective in all containers.**

**NOTE:** Safe for all animals. No restrictions when used as directed. Contents are highly concentrated, never overdose. Product will not affect animals digestion system. Follow directions closely.

**Contents:** Enzymes from plants, trace minerals and water enhancing agents.

**CAUTION: KEEP OUT OF REACH OF CHILDREN.** Bottle is highly concentrated. In case of eye contact, rinse with water. Should any irritation occur seek medical attention. Do not take internally. Buyer assumes all responsibility when not used as directed.
