Skout's Honor Oral Gel is proven to freshen breath fast, while helping to reduce plaque and tartar at the source.

An alternative to toothpaste/brushing, for pets who don't drink a lot of water. Easy-to-apply tip for quickly coating teeth and gums.

Directions:

1. Lift upper lip to apply a layer of gel (along the gumline) to each side of dog's mouth. Gently pull down lower lip and repeat process.
2. After application, your pet will lick their lips repeatedly in pure peanut butter and bacon bliss, which is normal and helps move the gel around to cover the harder to reach areas.

For Best Results: Withhold food and water for 30 min. before and after application. Use in conjunction with other Skout's Honor Oral Care products. Safe for dogs & cats 6 months and older. This product is nut allergen free.

Caution: Avoid contact with eyes. Keep out of reach of children and pets. Store at room temperature.
