Kills Fleas • Reduces Ticks* • Repels Mosquitoes

KILLS FLEAS & TICKS BY CONTACT

Skout's Honor Flea & Tick Yard Spray contains some of nature's most potent pest-fighting ingredients to kill fleas and ticks by contact (including their larvae and eggs) + repels mosquitoes.

*Reduces adult ticks by 68% & nymphs by 90% in 24 hrs.

DIRECTIONS: For Active Pest Problems: Shake well. Apply twice within 2-10 days for best results. After attaching to a hose, turn the nozzle and start spraying the bottom 2 feet of your home/structure until visibly wet. Continue into the yard, and to the back or your property line. Walk at a steady pace and use a sweeping motion, slightly overlapping treated areas until visibly wet. Do not apply to a food-use site, such as fruit & vegetable gardens. To ensure you're fully treating your pest problem, we recommend using in conjunction with Skout's Honor Flea + Tick & Home Spray.

For Prevention & Maintenance: Prevents fleas, ticks and mosquitoes in an area up to 5,000 sq. ft. For ongoing control, apply every 30-45 days, or as needed. Use year-round for total peace of mind.

Coverage Area: Treats up to 5,000 sq ft.

PRECAUTIONARY STATEMENTS

May cause moderate eye irritation. For outdoor use only. Prolonged skin contact may cause irritation.

FIRST AID

If In Eyes: Hold eye open and gently wash with water for 15-20 minutes. If irritation persists, contact a physician.

If Swallowed: Immediately drink plenty of water. Do not induce vomiting. Contact a physician.

Storage and Disposal: Store in a cool, dry place. Offer empty container for recycling.
