OPTIMAL NUTRITION

23% Protein & 30% Fat for the Nutrition Young Animals Need to Thrive

LIFELINE Lamb Plus+ Milk Replacer

Crafted to support the healthy growth of lambs from day two to weaning. With **23% protein** and **30% fat**, Lamb Plus delivers essential nutrition for energy, growth, and vitality. Enhanced with our advanced **LifePulse™** additive, this milk replacer promotes immunity, gut health, and respiratory well-being, providing lambs with a strong start.

Key Features of LifePulse™ Additive:

- **Oregano** – A natural antimicrobial that promotes growth, aids digestion, and strengthens immune defenses.
- **Plasma** – Boosts immunity and supports gut health for thriving young lambs.
- **PHYTOsolvan®** – Protects against respiratory issues, ensuring resilience during critical growth phases.

Why Choose LIFELINE Lamb Plus?

- **Immune and Gut Support** – Plasma enhances immunity and gut health for robust development.
- **Natural Antimicrobial Power** – Oregano supports digestion and defends against environmental stressors.
- **Respiratory Wellness** – PHYTOsolvan® reduces respiratory challenges, promoting overall health.
- **Balanced Nutrition** – Balanced with 23% protein and 25% fat for swift growth and more energy.

Support Lambs for a Thriving Start

From immunity to respiratory health, LIFELINE Lamb Plus Milk Replacer provides advanced nutrition tailored to young lambs' needs. Backed by LifePulse™ technology, this formula ensures lambs thrive from the first feeding, resulting in a healthier flock and a stronger bottom line.

MILK REPLACER 23|30

FEEDING GUIDELINES

LAMB'S AGE (DAYS OLD)	MILK REPLACER POWDER (OUNCES BY WEIGHT)	WARM WATER 105°F (FLUID OUNCES)	FEEDINGS PER DAY
1	Rescue Lamb & Kid Colostrum Replacer		
2 - 10	1½ - 2	6 - 8	3
11 - Weaning	2 - 2½	8 - 10	3
For example, an average 2 day old kid would receive: 1.5 oz powder 6 oz water Fed 3 times per day			

Mix LIFELINE Lamb Plus+ Milk Replacer into warm (105°F) water. Stir until the powder is completely dissolved. Only mix enough powder for one feeding at a time.

- Milk replacer powder that is measured in ounces is measured by weight. Warm water is measured by fluid ounces (volume).
- Do not exceed feeding recommendations.
- Contact your veterinarian for nutritional requirements.

RECOMMENDATIONS

- Feed milk replacer on a consistent schedule.
- Start feeding lamb starter feed in week 2. Add some milk replacer powder to the top of the starter feed to entice lambs.
- Make sure to provide and maintain fresh, clean drinking water.
