

Sasquatch

Essential Feeds

Hair Growth Formula

Sasquatch (formerly Nu-Grow) is a melatonin supplement that has been used to increase hair growth within many different species. Provides 100 mg of Melatonin per ounce.

Features:

- Stimulates hair growth
- Increases hair length and diameter
- Produces a more lustrous coat
- Provides Thiamine to calm your animal but will still remain alert

Feeding Rate for sheep and goats:

- 1 Quart (10-15 ml/day) - 63 Day Supply per head
- 1 Gallon (10-15 ml/day) - 252 Day Supply per head
