

Aleira ®

Arenus® Animal Health

Optimal Respiratory and Immune Support

- Supports optimal respiratory and immune function to combat the effects of airway inflammation.
- Non-medicinal alternative to steroids that can safely be used with or without traditional medicines.
- Highest quality, all vegetarian DHA Omega-3 source available.
- Premium DHA source and exclusive mushroom matrix
- The product with established Research

Essential respiratory support, ALERIA® helps maintain optimal respiratory and immune function in a daily, non-medicated supplement. Our research-proven formula combines all vegetarian DHA, an antioxidant Mushroom Matri, vitamin C and MSM into a powerful supplement. Aleira addresses inflammation and immune responses for horses with a range of respiratory issues and dermatologic reactions.

DIRECTIONS FOR USE:

ALEIRA® can be added directly to your horse's daily grain ration or concentrate. One level scoop is equal to 30 grams; 60 cc scoop enclosed.

Aleira is an aromatic supplement. Open new container and allow to air for a couple of hours before use. To acclimate, start your horse with small amounts of Aleira for the first few days. Add water, molasses, vegetable oil or dilute corn syrup (50 to 75% water) for enhanced palatability.

Loading Dose: Feed the Recommended Daily Feeding for the first 90 days of use for optimal results.

Maintenance Dose: Reduce the Recommended Daily Feeding by 25% to 50%. If horses condition worsens or does not maintain, return to loading dose and keep horse on loading dose.

RECOMMENDED DAILY FEEDING

Do not split between grain meals.

Horses(801-1300lb) – 1 level scoop per day

Miniatures(175-500lb) - .5 scoop per day

Ponies(501-800lb) - .75 scoop per day

Draft types(>1300lb) – 1.5 scoops per day

WARNINGS

For use in horses and equids only. Keep out of reach of children
