

Assure Plus®

Arenus® Animal Health

Pelleted Digestive Performance Enhancing Formula

- Unique pelleted and concentrated delivery system of psyllium for optimal benefits beyond sand removal.
- Customizable piece of the Assure System® boosts the effectiveness of its daily digestive health programs with additional psyllium during times of heavy stress, exercise or upset.
- Contains a complete balance of ultrapure and all natural 100% psyllium fiber, probiotics, prebiotics, yeast and digestive enzymes.
- Proprietary GST® Technology

Proven Powerhouse for Digestive Stability

Concentrated and dynamic, Assure Plus® offers a custom solution to digestive health problems is an effective, pelleted psyllium supplement. This patented and veterinarian recommended supplement is a powerful addition to Assure System® daily maintenance programs. Proprietary psyllium process and special enteric coated pellets ensure delivery of beneficial microbes and ingredients. Conditions and cleans the entire digestive tract for optimal support and GI function.

When fed to enrolled horses in combination with Assure Guard and as part of an approved Wellness Program, Assure Plus qualifies for the Colic Assurance Program. Registration Required. For more information to register, visit arenus.com.

Directions for Use:

Assure Plus® can be added directly to your horse's concentrate or grain ration.

Formulated for use with Assure or Assure Guard for optimal digestion. One heaping scoop is approximately 113 grams; 4ounce scoop enclosed.

LOADING DOSE: Feed the recommended Daily feeding amount with chosen Assure System pairing for 6 weeks for optimal results.

MAINTENANCE DOSE: Feed the recommended maintenance feeding on an interval basis for 7 consecutive days each month. Use Assure or Assure Guard daily.

RECOMMENDED DAILY FEEDING:

Split between all grain meals fed during the day.

HORSES: (801-1300lb)- 2 heaping scoops per day

MINIATURES: (175-500lb)- 1 scoop per day

PONIES: (501-800lb)- 1.5 scoops per day

DRAFT TYPES: (≥1300lb)- 3 scoops per day

Cautions:

Horses with extreme sand accumulation may have discomfort due to sand irritation in the first 4-7 days of feeding. Consult your veterinarian for horses with extreme sand accumulation. Do not begin feeding Assure Plus to pregnant mares during the last 6 weeks of gestation or directly post-partum, if significant sand accumulation is suspected.

The Assure products were designed to be customized. Various digestive issues have been found to have differing directions for use. Consult your veterinarian or call Arenus Animal Health to develop a custom digestive program for your horse.

Our proprietary GST® Technology requires a softer pelleting process; crumbling at the bottom of the bucket is expected. Crumbles may be feed normally per your dosing directions.

Guaranteed Analysis per two (2) 113G scoops

Crude Protein (Min).....	7.2%
Crude Fat (Min).....	1.8%
Crude Fiber (Max).....	4.0%
Soluble Fiber (Max).....	71.4%

Manufactures with Prebiotics and Probiotics

Mannooligosaccharides (MOS).....	1%
Saccharomyces cerevisiae.....	28 billion cfu*
Lactobacillus acidophilus.....	3 billion cfu*
Enterococcus faecium.....	2 billion cfu*
Protease.....	206 HUT**
Alpha-amylase.....	722 MWU**
Cellulase.....	103 CU**

Contains a source of protease which can hydrolyze proteins

*Colony forming units (live cells)

Contains a source of live (viable) naturally occurring microorganisms

**The terms HUT, MVW, and CU are recognized industry standards for measuring enzyme potency

Contains a source of alpha-amylase which can hydrolyze starches

Contains a source of cellulase which can break down cellulose

Ingredients:

Psyllium seed husk, wheat mill run, molasses, direct feed microorganism blend (distillers grain, dried Saccharomyces cerevisiae fermentation product, sodium silicoaluminate, dried Lactobacillus acidophilus fermentation product, dried Enterococcus faecium fermentation product, dried Aspergillus oryzae fermentation extract, dried Trichoderma longibrachiatum fermentation extract, dried Bacillus subtilis fermentation extract), brewers dried yeast, dried Saccharomyces cerevisiae fermentation solubles, natural and artificial flavoring.

Notice:

Colic Assurance Program™

If you are considering enrolling in the Colic Assurance Program, please do so immediately to avoid duplication of the loading period. Your horse may require a different loading dose and schedule.

Registration is Required for Coverage
