

Eq-Well™

Patent Pending

ARENUS® ANIMAL HEALTH

More than just vitamins and minerals

Vitamin-Mineral Supplement for Optimal Health and Structural Support

- Advanced technologies aid tendon, ligament, and muscle recovery and function while improving overall structural integrity.
- Balanced vitamin-mineral profile for all ages and levels of performance.
- Unique chelated and double chelated minerals for maximum absorption.
- High levels of antioxidant support for enhanced vitamin activity.
- The ONLY Vitamin-Mineral balancer with TelaFIRM

EQ-WELL™ is a scientifically advanced, complete vitamin-mineral balancer formulated for all life stages. The high-quality double chelated minerals in our proprietary TelaFIRM® are optimally bioavailable, ensuring they reach target areas such as tendons and ligaments for advanced soft tissue support and structural integrity. Eq-Well is the only product with Sodium Zeolite A to support strong bone development, as well as HMTBa and chelated iron to help improve muscle function. Naturally sourced vitamin E provides effective antioxidant support while omega-3 fatty acids support overall health. The addition of chromium makes Eq-Well ideal for metabolic horses.

Directions for Use:

EQ-WELL™ can be added directly to your horse's daily grain ration or concentrate. Orally administer 1 scoop to the average 1,000lb horse in light exercise, receiving a concentrate diet. One, level scoop is approximately 70 grams; 4 once scoop enclosed.

Warnings:

For use in horses and other equids only. Keep out of reach of children and other animals. In case of accidental overdose, contact a health professional immediately.

Cautions:

Safe use in pregnant animals or intended for breeding has not been proven. If the condition worsens or does not improve, stop product administration and consult your veterinarian.

Regulatory Compliance:

*Cobalt is a critical mineral for equine athletes. Cobalt levels contained in this supplement are meant only to provide the daily recommended value for horses. Some equine sport regulatory agencies test plasma and/or urine for cobalt abuse. Use of this product at recommended dosing will not bring plasma or urine levels to an excess of the limits set by all known regulatory agencies. Consult your regulatory agency and veterinarian to ensure this product meets your regulatory agency requirements. Active Ingredients per (2) 70G Scoops

Methylsulfonylmethane (MSM)	5000mg	Tyrosine	570mg
Methionine	4178mg	Histidine	390mg
Potassium	3202mg	Manganese	238mg
Vitamin A	4750IU	Zinc	231mg
Calcium	2773mg	Iron	230mg
Sulfur (from MSM)	2649mg	Cystine	209mg
Sodium zeolite A	2375mg	Choline	95mg
Lysine	1900mg	Copper	58mg
Vitamin D3	1663mg	Vitamin B5 pantothenic acid	46mg
Omega-3	511mg	Vitamin B3 thiamine	29mg
Vitamin C	1425mg	Vitamin B1 niacin	29mg
Phosphorus	1362mg	Biotin	24mg
HMTBa	1330mg	Vitamin B6 pyrodoxine	19mg
Leucine	1254mg	Vitamin B2 riboflavin	19mg
Sodium	1207mg	Folic Acid	14mg
Threonine	950mg	Beta carotene	1.9mg
Phenylalanine	874mg	Glycine	1.5mg
Arginine	732mg	Iodine	0.7mg
Vitamin E	713IU	Vitamin B12 cyanocobalamin	0.48mg
Isoleucine	703mg	Selenium	0.46mg
Magnesium	665mg	Chromium	0.29mg
		Cobalt*	0.23mg

Ingredients:

Alfalfa meal, mono-dicalcium phosphate, methylsulfonylmethane (MSM), magnesium amino acid chelate, flax oil, salt, biotin, sodium zeolite A, potassium chloride, manganese methionine hydroxy analogue chelate, iron amino acid complex, vitamin C as ascorbic acid, zinc methionine hydroxy analogue chelate, L-lysine, MHa, d-a tocopherol acetate, as natural vitamin E, copper methionine hydroxy analogue chelate, L-threonine, choline chloride, selenium yeast, chromium propionate, vitamin B12, D-calcium pantothenate, niacin, thiamine mononitrate, iodine amino acid complex, riboflavin, pyridoxine HCL, beta carotene natural, folic acid, cobalt amino acid chelate, vitamin A acetate, vitamin D3, natural and artificial flavors.
