

Equilytes®

Vetline®

The only electrolyte that absorbs immediately. Instant absorption can be the difference between winning and losing.

Created & tested by veterinarians

#1 Veterinarian Recommended

A superior proprietary blend of electrolytes and amino acids that gives your horse an IMMEDIATE BOOST to gain a competitive advantage. Compare to other brands that take 8 hours to begin working.

Ingredients: A proprietary blend of electrolytes and amino acids in a molasses base that horses love.

Guaranteed Analysis	
Sodium Chloride (salt).....	4g
Magnesium	600mg
Potassium.....	2g
Calcium.....	600mg
L-Glutamine.....	100mg
Amino Acid.....	22g

Dose: To be given before and after exercise or competition. Give half tube or full tube, depending on intensity of exercise. Can also be given before and after hauling to relieve fatigue. *Absorbs instantly!*
