This multi-species product has been formulated specifically for beef cattle, horses, swine, sheep and goats and is not intended for other species.

This multi-species product has been formulated without added copper and may not provide adequate copper for optimal beef cattle, swine and goat performance. Please provide a separate source of copper, such as free choice mineral, if feeding this product to swine, goats and beef cattle. Do not provide another source of copper if feeding sheep.

Caution: Follow label directions. The addition to feed of higher levels of this premix containing added selenium is not permitted.

Hubbard does not use “Restricted-use Proteins” in their products and is in compliance with FDA and state requirements regarding the use, handling and storage of “Restricted use Protein” Products.

Feeding Directions:

Feed according to below feeding rates.

Always supply a source of fresh, clean water.

Enclosed scoop holds approximately 1 ounce.

Beef Cattle & Horses: Feed 4 ounces/ head/ day

Swine & Sheep: Feed 2 ounces/ head/ day

Goats: Feed 1 ounce/ head/ day

This pelleted supplement is designed to optimize the overall performance of an animal by:

- Promoting healthy mobility
- Supporting healthy bones & joints
- Supporting healthy skin
- Supporting motion & flexibility
- Supporting healthy cartilage and synovial fluid
- Promoting a healthy immune system

Contains no added copper so it can be fed to all classes of show animals.

Formulated with added selenium for supporting nerve, muscle, joint and metabolic function.
