- ✓ USEF & Jockey Club Competition Safe
- ✓ **Made in the USA** using globally sourced premium ingredients

X4 One Month Supply

Directions:

1 Syringe= 1 Dose

Must Administer 1 Dose under Tongue

Avoid placing directly on tongue or down throat, this may cause horse to swallow the dose before it can be absorbed.

Suggested Use:

1 Dose Weekly

For additional support, dosage may be increased as desired or as recommended by your veterinarian.

Unsound Horse Starter Series (4 syringes):

Give 1 dose to your horse every day, for 4 doses. Maintain with 1 dose every week.

Competition Boost:

Administer 1 dose 24 hours prior to competition. Administer 1 dose every 48 hours during competition, as needed.

Sublingual supplements work best by being absorbed directly through the mucus membranes **under the horse's tongue**.

This method allows OptiC4S to by pass the digestive system and enter through the bloodstream directly-resulting in faster, more effective relief.

Servings per container:

4 pre-filled syringes (.14 FL OZ/ 4 mL each).

Active Ingredient:

Chondroitin 4-Sulfate, 1000mg (OptiC4S; from bovine origin).

Inactive Ingredients:

Distilled Water, Monk Fruit Extract, Hydroxyethyl Cellulose, Sodium Benzoate.

Caution:

Safety in pregnant animals or animals intended for breeding has not been proven.

Always consult your veterinarian if you suspect your animal is sick or injured.

Warnings:

Not for human consumption. Keep out of reach of children. Store in a cool, dry place.

Until use, keep cap on.
