

Oral Cal Plus™

Breeder's Edge®

Calcium Supplement

Supports productive labor with 3 calcium sources, magnesium and MCTs

DOG/ CAT

Net Contents **15ml Gel**

Female Health

Breeder's Edge® Oral Cal Plus™ Gel supports mom's productive labor by delivering 3 sources of calcium, along with magnesium and vitamin D3 to maintain strong, healthy contractions. **Oral Cal Plus™ Gel** Contains MTCs for mental alertness and extra energy. Vanilla Flavor.

Directions for Use: Administer first dose orally after observing a one degree or more temperature drop. Active labor is estimated to begin within the next 12-24 hours. Administer subsequent doses every 4-6 hours until active labor begins, and after each newborn until labor is complete.

Cats, do not exceed 1mL per dose.

Dogs up to 20 lbs, 2 mL initial dose; 1 mL per dose thereafter.

Dogs over 20 lbs, 1 mL per 10 lbs initial dose 1-3 mL per dose thereafter. Give an additional dose if labor stalls more than an hour.

If labor stalls for more than 2 hours, consult your veterinarian.

For intermittent or supplemental feeding only.

For animal use only. Keep out of reach of children.

Avoid excessive heat.

Store at room temperature 58°F-86°F (15°C-30°C)
