

Pro Plan Veterinary Diets UR Urinary Ox/St Dry Dog Food

Purina Veterinary Diets

- Promotes a urinary environment unfavorable to the development of both sterile struvite* and calcium oxalate crystals
- Helps dissolve sterile struvite stones*
- Helps reduce the risk of both sterile struvite* and calcium oxalate stone recurrence

*Most struvite uroliths in dogs are caused by urinary tract infections. In the case of non-sterile struvite uroliths, it is important to treat with the appropriate antibiotic in addition to dietary management.

Contains Antioxidants
